 **GAMBRO**
HOSPAL

Directors & Scientific committee

Dr. Estevao Lafuente
Dr. Anibal Marinho

Dr. Manuel Herrera
Dr. Javier Maynar
Dr. Sánchez-Izquierdo

Introduction

As we had promised to return, after the success that was the 1st Iberian Meeting of Malaga. Fast forward a year and the Techniques of Renal Replacement prevailing topics of major attention in the treatment of critically ill.

We have been witnessing tremendous development in different aspects of these techniques. Several observational studies, experimental and clinical studies have attempted to reach a consensus on what would be the best mode, the best dose and recently the best membrane for the treatment of patients with Acute Kidney Injury in sepsis and septic shock. The discussion has not been always easy. Intermittent modes in unstable patients appear to be already outdated threads and high doses begin to don't make sense.

Today we are more awake to the need of starting earlier the technique according with biological indicators and attribute much of the success due to the biological properties of membranes. New issues and new questions are emerging and raise other challenges. These were the topics chosen for this second meeting.

We hope that the quality of the speakers and the relevance of the topics, answers and contribute to the future challenges.

Monday, October 24th

- | | | | |
|-------|---|-------|---|
| 9.00 | Opening session. Highlights.
Dr. Anibal Marinho, Dr. Estevao Lafuente, Dr. Manuel Herrera & Dr. José Ángel Sanchez-Izquierdo | 13.30 | Lunch |
| 9.30 | Minisymposium: the questions
Moderators: Dr. Joao Gouveia & Dr. José Ángel Sánchez-Izquierdo

AKI in the ICU. How to evaluate? Dra. Gemma Seller
Intensity of Dialysis in AKI. Does it matter?
Dr. Anibal Marinho
Customized Solutions for CRRT. What do we need?
Dr. Javier Maynar
Anticoagulation. What works better citrates or heparin?
Dr. Armindo Ramos | 14.30 | Working panels and study cases
Moderators: Dra. Silvina Barbosa & Dr. Javier Maynar

1 st Study Case. Dr. Jorge Gomes da Silva
2 nd Study Case. Dr. Pedro Bernad
3 rd Study Case. Dra. Susana Ferreira
4 th Study Case. Dr. José Ángel Sánchez-Izquierdo |
| 11.00 | Coffee Break | 16.30 | Meet the expert. Moderator: Dr. Manuel Herrera

Current status of liver dialysis with MARS.
Dr. Alexander Wilmer |
| 11.30 | Communications (4).
Moderators: Dr. Estevao Lafuente & Dr. Manuel Herrera | 17.00 | Coffee Break |
| 12.15 | Meet the expert
Moderators: Dr. Artur Mendes & Dr. José Ángel Sánchez-Izquierdo
Immunomodulation in Sepsis: Prof. Dr. Santos Rosa
Immunomodulation in CRRT: What we learn in these years?
Dr. Manuel Herrera | 17.30 | Meet the expert
Moderators: Dr. Manuel Herrera & Dr. Estevao Lafuente

High Flow: Why it must works in Sepsis? Dr. Thomas Rimmele |
| | | 19.30 | End of the session |

Tuesday, October 25th

- | | | | |
|-------|--|-------|---|
| 09.00 | Acute Renal Failure: What are you doing now in the ICU?
Expert Panel: Dr. Anibal Marinho, Dr. Estevao Lafuente, Dr. Artur Mendes, Dr. Armindo Ramos, Dr. Manuel Herrera, Dr. Javier Maynar & Dr. José Ángel Sanchez-Izquierdo. | 11.30 | Meet the expert
Moderator: Dr. Estevao Lafuente

Endotoxines. Removal must be an early priority in septic shock patients. Dr. Rafael Máñez
What is expect in CRRT for the next years? Dr. William Clark. |
| 10.30 | Minisymposium: the challenges
Moderators: Dra. Gemma Seller & Dr. Anibal Marinho
Biomarkers. Have we win creatinine?
Dr. Ángel Candela
CRRT in sepsis. Can we modify outcomes?
Dr. Joao Gouveia | 13.30 | Announcement of the awardees communications and next meeting place. |
| 11.00 | Coffee break | 13.00 | Lunch |
| | | 15.00 | End of the meeting |
